## DIESEL BOATS FOREVER

It seems it's now that time of year  
When once again we shed a tear;  
To see some diesels - proud before,  
That now will put to sea no more.

Their colors struck, their engines dead,  
Who once to enemies brought dread.  
Entemedor was mighty named  
For one so very often famed.

And Dogfish too, has come to be  
A goal for those who put to sea.  
Hardhead, famed in peace and war,  
Has added her name to the lore

For which the diesel boats are noted.  
She, and they, should all be voted  
An N.U.C. for jobs well done.  
As for the men who've made them run,

They're Submariners unsurpassed  
Who've spent their years before the mast,  
Making sure the job's done right  
And keeping reputations bright.

For Navy men the whole world over,  
From Subic to the Straits of Dover  
Know how well these boats perform,  
Far above the Navy's norm.

The wives behind these valiant men  
Are now, as they have always been,  
An inspiration to us all;  
They've aided us to stand up tall.

New boats come and old boats go  
And men and wives move on, and so,  
As, for a time, our friendships sever,  
Remember "Diesel Boats Forever".

COMMANDING OFFICER  
USS TIGRONE (AGSS 419)  
FPO NEW YORK 09501

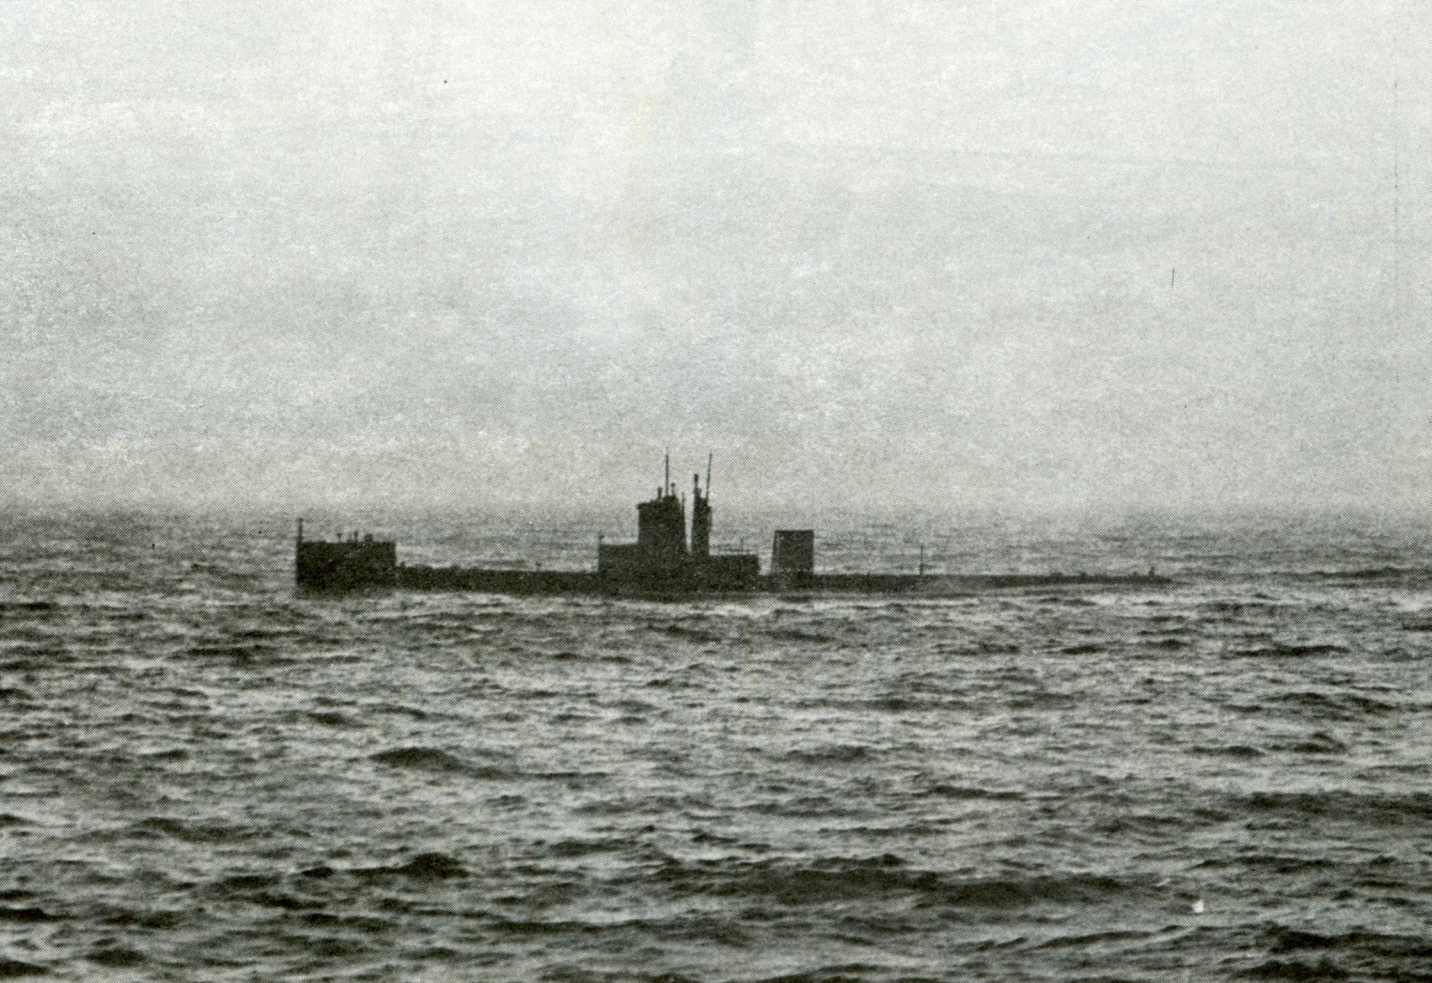

To the Crew:

TIGRONE has always enjoyed a fine reputation as fighter, feeder and squadron leader. Each of you who has served in her can be justifiably proud of your part in establishing and maintaining this reputation. I can find no finer way to express our pride in our ship than to say that when you think back on your tour you will be able to say "TIGER-ONE was a good boat."

I take this opportunity to express to you my pride in having served as your Commanding Officer in our wonderful ship - TIGRONE.
